Is Hillary Rodomski Clinton a Marranos Rockefeller?

Bill Clinton was born Bill Blythe III as raised Jewish, then changed his name to Clinton at age 18.

"President Clinton was born William Jefferson Blythe III."

Bill Clinton vacations with the trillionaire Rockefellers every year at Jewish Bohemian Grove presidential retreat and homosexual nudist compound, where they perform ritual "mock" human sacrifice to a 50-foot-tall idol of Molech. Trillionaire Rabbi David Rockefeller introduced Bill Clinton to President JFK at the White House. Rocky is usually cropped from that photo.

Arnie Sachs captured 16-year-old Bill Clinton's meeting with President John F. Kennedy in the Rose Garden in 1963. The photo, heavily promoted during Clinton's 1992 presidential campaign, has been widely reproduced.

=====

U.S. President William J. Rockefeller???

Former U.S. President William Jefferson Rockefeller???

Have you ever wondered how that "poor" boy from Arkansas got to be a multi-term Governor of the State of Arkansas and a two-term President of the United States of America? It is because he was the Governor of a state that was essentially owned by the former Republican Governor of Arkansas Winthrop Rockefeller. How did Clinton afford Georgetown, Oxford & Yale University Law School, and then jump into politics? It cost a lot of money to run for public office, even back then.

There has long been speculation about the real identity of the actual biological father of the former United States President William Jefferson Clinton. According to Bill Clinton's White House biography his real father was Bill Blythe III, who had been killed in an automobile accident before the President was even born; however many in Arkansas claim that Blythe had only been back in the United States for six months prior to Clinton's birth.

William Jefferson Clinton ran for the United States House of Representatives (not the Arkansas State house) less than six months after getting his law degree from Yale Law School. He served as Jimmy Carter's Arkansas state campaign manager, while also teaching at the University of Arkansas School of Law, and also manages to get himself elected as the Arkansas State attorney general in 1976, and elected as the governor of the state of Arkansas in 1978 (having only been in public services for less than two years).

This means that Bill Clinton began campaigning for the Arkansas U.S. congressional seat while he was still in law school at Yale

University. Then he ran a statewide campaign for state attorney general, while running another statewide presidential campaign for Jimmy Carter and taught law school when??. all at the same time? Then with less than a year experience as the state's top judicial officer, he begins campaigning as the state's governor and actually wins ... just five years out of law school and then the youngest state governor in the United States of America.

WINTHROP ROCKEFELLER

Winthrop Rockefeller was son of John D. Rockefeller, Jr. and Abby Greene Aldrich, and the grandson of John Davison Rockefeller, Sr. who founded the Standard Oil Company. His brothers were John D. III, David, Nelson and Laurence Rockefeller. Winthrop Rockefeller also went to Yale University, 1931-1934.

He marries Barbara "Bobo" Sears in 1948, the beautiful daughter of an impoverished farmer; who the press had a field day with, often referring to her as "Cinderella." Winthrop enters into his self-admitted playboy period, then he and Barbara move from New York City to central Arkansas in 1953; with Win establishing Winrock Enterprises and Winrock Cattle Farms atop the Petit Jean Mountain. Winthrop quickly finds himself in a stormy and very well publicized divorce battle, and was ordered to pay her \$5,500,000 in 1954. He was remarried two years later, in 1956, to Jeanette Edris a hotel and theater heiress.

In 1966, despite the fact that there are less than 20% of registered Republicans in the State of Arkansas, Winthrop Rockefeller is elected Governor of the state of Arkansas and has some notable achievements. Horrified by conditions in the Arkansas prison system, he completely overhauls it by establishing the new Arkansas Department of Corrections. He worked to improve the state's dismal educational performance, by securing funding for new school construction and increased teacher salaries. He also built strong bridges with the states black communities, demanding an integrated draft board for the first time.

In 1968, he was the only Southern state governor to publicly mourn the assassination of Dr. Martin Luther King, Jr.; stating to the television media from the steps of the Arkansas State capital, "I am not my brother's keeper. I am my brother's brother." Rockefeller decisions as Governor provided the state's traditional old guard enough reason to back a young and energetic Dale Bumpers democratic candidate, who defeated him in November 1970.

Still troubled by the state's prison system, as his last act as the state's Governor, Rockefeller commuted the sentences of every current prisoner on the Arkansas' Death Row life without the possibility of parole, urging the other state governors to do the same, saying "I yearn to see other chief executives throughout the nation follow suit, so that as a people we may hasten the elimination of barbarism as a tool of American justice."

In September 1972 Rockefeller was diagnosed with rare kind of inoperable cancer, and he goes through a devastating round of chemotherapy. When he returned to the state of Arkansas, the citizens shocked at the frail and haggard appearance ... of what had been a giant of a man. Winthrop Rockefeller died in Palm Springs, California.

Jeanette Rockefeller, his second wife, died on December 8, 1998 at age 79 in Palm Springs, California; where she had volunteered relentlessly for the Palm Springs AIDS Assistance Fund -- non-profit organization that distributes food vouchers for persons currently living with HIV/AIDS in the Coachella Valley region. "She helped lead women into the mainstream of political and public life," according to former President Bill Clinton. "As a tireless campaigner, Mrs. Rockefeller was a strong force against discrimination, with an uncanny ability to relate to the common man and woman," Clinton said in a statement.

Winthrop P. Rockefeller, Jr. has been the Lieutenant Governor of Arkansas since 1996, and he formally announced that he will be running for Governor of Arkansas.

President Clinton has made the battle against HIV/AIDS, a focal point of the work of the Clinton Foundation, just as Mrs. Rockefeller had dedicated her final years. President Clinton says he believes deeply that until we combat the pandemic in the developing world, where more than 90 percent of the 40 million people worldwide who have HIV/AIDS live, it will be impossible for these countries to achieve their social and economic development goals.

BLOODLINES

In the "The Biggest Secret" we learned that all 42 of the 43 U.S. Presidents have all been related to one another (at least distantly). However, Bill Clinton having been number U.S. President number 42, did not even know who his father was, until the record showed up several decades later? David Icke is absolutely correct in his statement that all 41 Presidents of the United States have been directly related to one another. This has been confirmed by a genealogical organization known as Burke's Peerage, and Gary Boyd from the New England Historical Society, William Jefferson Clinton is the one that who somehow does not fit.

You see Bill Clinton was born to Virginia Dellcassidy and William Jefferson Blythe III. At some time in the 1940's Bill Clinton's mother had either divorced William Jefferson Blythe III or he passed on. So in 1946, when she married Roger Clinton, they changed his name to Clinton from Blythe.

EVEN MORE PUZZLING:

1. How did Jimmy Carter come to pick Bill Clinton as his presidential Arkansas state campaign manager, he was in D.C for four (4) years (when Jimmy Carter was not), then he was in England for two (2) years, and New Haven, CT for two (2) more years. This is good old boy Southern politics, when does not just walk in and start calling the shots....and live to tell the story.
2. Who funds the campaigns of some non-family connected, recent law school graduate with little experience even in the legal field and NO experience in political office?
3. Former U.S. Presidents George H.W. Bush and William Jefferson Clinton now appear to be the best of friends, in fact, according to the Larry King Show this summer Bill Clinton joined George H.W Bush for some fishing up at Walker's Point in Maine.
3. What law school in America hires a student right out of law school to be a professor with no actual experience inside the courtroom? It's not impossible; but from law student to law professor, is about as rare an occasion... as having a Catholic priest be elevated to a Cardinal. However, at least when Cardinal Avery Dulles made that leap, had three (3) United States Secretaries of State and a former director of the United States CIA in his family, plus his mother was a Rockefeller. Hmhmhmhmhm

Additional Information:

CNN.com - Clinton says he'll give \$10M to AIDS fight - Apr 11, 2005

If this pledge is carried out, which I have no reason to believe that it will not, it will be one of the largest individual donations in the fight against AIDS.

BILL CLINTON AND THE ROCKEFELLERS

By Sherman H. Skolnick

This article is copied from

Conspiracy Nation -- Vol. 8 Num. 42

("Quid coniuratio est?")

There are big, dirty secrets that may explain the rise to power of those otherwise obscure. A case in point is William Jefferson Clinton. Some background:

Seldom mentioned, although known: the Rockefellers own and operate Arkansas, a very poor, backward state that is quite sizeable with a comparatively small population. Several terms before Bill Clinton held that position, Winthrop Rockefeller was Arkansas Governor; Winthrop being the grandson of John Davison Rockefeller, founder of what some call the evil empire of

Standard Oil.

By U.S. Supreme Court ruling in 1910, based on Rockefeller's corrupt and violent monopoly practices, the Standard Oil Trust was broken into various parts. Although the names of the resulting parts have been changed around to confuse naive people, the Rockefellers still control them all, such as Standard Oil of New Jersey, now called Exxon; Standard Oil of Indiana, now called Amoco, and Standard Oil of Ohio, now merged with interests of the British royal family and called British Petroleum; and so on.

The person now known as Bill Clinton: his maternal grandmother, believed to be quite a beauty, and reportedly having some link to British royalty, *had a great love affair with Winthrop Rockefeller*. **Hence, Bill Clinton is apparently the illegitimate great grandson of old John D. Rockefeller**. Another great grandson is John D. Rockefeller IV, called Jay, to be cute. Is Jay a secret power co-conspirator with Bill Clinton or a rival for occupying the White House?

Up to now, Bill Clinton's background, as portrayed by the Rockefeller-controlled monopoly press, is apparently just another fairy tale of a kid from a nothing place, Hope, Arkansas, somehow rising to high position by great effort and merit. A recent book points out that Bill Clinton was more linked with Hot Springs, Arkansas, and was dominated by his uncle Raymond Clinton. The uncle was a wealthy and influential so-called "auto dealer" (some contend that sometimes is the title or role of the local or regional bagman) with ties to the Ku Klux Klan and organized crime. Along with other figures from the vice-ridden, mob-controlled Hot Springs of the 1940s and 1950s, Uncle Raymond financed Bill Clinton's first campaigns. (See: "Partners in Power, The Clintons and Their America" by Roger Morris.)

Other reputed patrons of Bill Clinton reportedly include the Jacobs family of Buffalo, New York (who also reportedly contributed to the rise to high position in sports of O.J. Simpson). They control concessions at sports stadia around the nation, through their operations, once called Emprise, and later, Sportsystems, Inc. Some contended the international sports concession firm had underworld ties.

(See, for example: Chicago Sun-Times, 6/6/72; 1/16/72; 11/28/72. Later, Jeremy Jacobs, president of Sportsystems, Inc., testified that the firm has been "rehabilitated", Chicago Tribune, 3/4/75. In 1972, Emprise Corp., a Sportsystem subsidiary, was convicted in California Federal Court of making a series of loans to Las Vegas gamblers with crime syndicate connections. Chicago Tribune, 3/4/75.)

The Jacobs family runs dog racing, popular in Arkansas. They also have owned Marine Midland Bank, originally headquartered in Buffalo, and now have units nation-wide, and around the world by having merged with Hong Kong and Shanghai Bank. The Hong Kong Bank financed the opium trade going back to the 19th Century Opium Wars, the British method of subjugating China. That Bank has been owned and operated by British royalty and is interlinked with British shipping firms in the Pacific rim. Also, some in law enforcement have accused the Marine Midland Bank of being reportedly a dope money laundry.

Clinton, as Governor, played a role with the aluminum cartel, since Arkansas at the time he was Governor produced about 90 percent of the nation's supply of bauxite for aluminum. (The cartel run by the ultra-rich Mellon family of Pittsburgh.)

Bill Clinton reportedly was enlisted in intelligence and covert operations, at an early age, by Miles Copeland, London Station Chief for the American CIA. This while Clinton was at Oxford as a Rhodes Scholar. [for more on Clinton's CIA connections, see here --risephoenix] Who bothers to point out that CIA is interlocked with the oil companies -- like Rockefeller's -- with CIA being a form of international security police for oil facilities. And who bothers to remember that the Cecil Rhodes Trust is based on South African diamond mine monopolies and that the Trust and its "scholars" are pledged to restore control to the British of their former colonies now called the United States. (Arkansas apparently has the only diamond mines in the U.S. A mere coincidence?)

Other moneybaggers behind Clinton include Stephens & Co., which have had a Rockefeller on their board. They are the largest bond house outside of Wall Street, and headquartered in Little Rock with units worldwide. And they are interwoven with the Rose Law Firm. And Rose Law Firm partners Hillary Rodham Clinton and Vincent W. Foster, Jr. reportedly arranged the efforts of a twin-bank empire to spread out in the United States, as reputed money laundries: Bank of Credit and Commerce International (BCCI) and Banca Nazionale del Lavoro (BNL), Italy's largest bank owned in part by the Vatican.

BNL-Atlanta disguised some 5 billion dollars of weapons shipments to Iraq from U.S. firms, disguised as Agriculture Department credits -- weapons shipments primarily from Arkansas-based firms linked to George Bush and in some way with the Rockefellers, and on which Hillary was a board director or her role disguised as their "lawyer".

One only becomes Arkansas Governor with the blessings and approval of the Rockefellers. Because of secretly being part of the Rockefeller family, Bill Clinton considers himself to be a Teflon Man; no scandal can stick to him.

[risephoenix would also point out that Clinton is a member of the elite Bilderberg and of the Rockefeller-initiated Trialateral Commission. See other articles on Clinton here and here.]

Mr. Skolnick, since 1963, has been founder/chairman of a public-interest group, CITIZENS' COMMITTEE TO CLEAN UP THE COURTS, researching and disclosing certain instances of judicial corruption and political murders. Since 1971, as editor of updates of the group's work, called HOTLINE NEWS, a 5-minute recorded phone message, changed several times per week -- a regular phone call -- (312) 731-1100. Since 1991, a regular participant, now moderator, of a popular, public access cable TV program, called "BroadSides", in Chicago and suburbs -- on most every Monday evening in Chicago, on Channel 21 cable, 9 p.m., available to some 400,000 households. His comments appear on Internet on several websites; archives of his stories can be pulled up and printed out. Also, on Internet, his stories appear on some five categories of news groups, such as alt.current-events.clinton.whitewater and alt.activism. Office (8 a.m. to midnight, 7 days): (312) 375-5741. 9800 So. Oglesby Avenue, Chicago, IL 60617-4870. Call before sending FAX. (After October 12, 1996, AREA CODE changes to 773.)
